**1. I was a recipient of the 'CENTRAL SECTOR SCHEME SCHOLARSHIP' from 2015-18 during my Bachelor's.
2. During my Bachelor's, I had won the south regional competition of India Skills 2016 (Web Design Category). I also went on to compete in the national level India Skills 2016 competition in Delhi, representing the south region as 1 of 10 participants.
3. In spite of being a Commerce Student, I was inducted as one of the Web Committee members of my college during the final year of my bachelor's due to my technical skills. In that capacity, I was able to initiate and also create an Android application, which provided news as well as notifications directly from the college office to all stakeholders.
4. I have also developed a 'Study Material Website' for the MCA Student Community of APJ Abdul Kalam Technological University, which is beneficial to various stakeholders across the state. Refer URL(https://ktumca.github.io/)
5. I was the topper of Commerce Stream from Class 12 in my school securing 93.4% in the AISSCE 2015 Examination.
6. I won first prize in Web Design Competition in Ace Fest 2015, held at Ace College of Engineering, Thiruvananthapuram.
7. I had received a prize in the English elocution competition at the School's Arts Festival.
8. Won first prize in school science exhibition for 'Working Model' category.**

My leisure time activities include playing and following football, swimming and gaming. I m a keen follower of the European football especially the Champions League, also plays football on a regular basis which helps me refresh, reconnect as well as make new friends. I also love to travel and experience new cultures during my vacations. I also try to read as well as watch documentaries to learn more about places, people their history and backgrounds in other parts of the world well.

Why you wish to pursue the education in management and what is your career plan(s)?

After completing my graduation in Bachelor of Commerce (Computer Application), I started my career as a Software Developer in Lulu Forex Pvt. Ltd. in April 2018. I worked as a full-stack developer and was fortunate to work on wide variety of cutting-edge software technologies. After working with them for 2 years, I felt the need to pursue a degree preferably a Master's in a technology related subject to advance my career. I resigned from Lulu Forex in 2020 and enrolled for Master in Computer Application (MCA) at Thangal Kunju Musaliar College of Engineering (TKM CE), Kollam which is affiliated to APJ Abdul Kalam Technological University (KTU), Kerala.

From my experience as an MCA student and my previous experience as software engineer. I felt that I need to advance my existing skill set to acquire hands-on experience in a real-life scenario, with regard to management and decision-making, among others. The 'PGP-HRM' course from IIM Indore seems like a very good opportunity for me to acquire the earlier mentioned skills. It is true one can learn from work experience, but the right kind of training from the right place can help me focus better on improving myself. I believe as my career progresses; I will be given more advanced roles as a leader and the course can help me tackle such challenges in time. A HRM course from a well reputed institution can help me improve my people skills and help me manage the human resources of an organization.

I aspire to be an entrepreneur after a few years in my career, when I feel I have acquired the needed experience and skill. Pursuing this management course will surely steer my career in the desired direction & even in that position, this course will help me become a better human resource manager to pick as well as place the right people for my firm.

Statement of Purpose

I have already gained considerable technical skills and knowledge through my training, graduation & work experience. My goal of pursuing PGP-HRM from IIM Indore is to help acquire better management and decision-making skills enabling me to take bigger roles in the industry so that I can contribute bigger and better. I believe the training, curriculum as well as exposure from a top b-school like IIM Indore will help me grow professionally and benefit my future growth.

If given the opportunity to pursue & complete the course, I would pursue opportunities that will enable me to unleash my newly acquired skills & knowledge. I strongly believe contribution is not just about working for a company, moreover, I plan to help smaller communities, organizations & individuals by handing them technical solutions as well as working on micro-projects with them as time allows. I also believe working on projects & solving problems for communities globally is a good way to give back to society.

In the longer run, I do plan to gain more corporate experience as part of my job for about 7-10 years after which if I feel confident enough, I would like to set up my own venture and take up the role of an entrepreneur. Gaining excellent leadership skills as well as decision-making skills will be my stepping stone to great entrepreneurship.

E. Declaration

I have carefully read the instructions and agree to abide by the IIM Indore's decision regarding my selection for the programme. I certify that the particulars given by me in this form are true to the best of my knowledge and belief. I am aware, that, in case, I have given incorrect/ false information, then my admission will be withdrawn at any stage.
